*Spec'ed room lengths and dimensions are based on measurements to the face of casework or the center of the unit. They do not include the width of doors, cabinets, or the space between the perimeter walls and include minor wall components and other minor elements. The method of measurement is provided in the sales and leasing agreement and is provided for those purposes only to compare the Unit, which includes our design program but does not include, for your reference, the space designed for the Unit, determined in consultation with the architect of the "Unit," with the architect's design program. Measurements and dimensions of any and all building parts of each plan must be based on drawings and specifications. All floor plans, specifications and other development plans are prepared and compiled in one set and are subject to change and will not necessarily accurately reflect the final plans and specifications.
