THE VISION

BY TURNBERRY

When you find a residence that feels right, you just know it.

When you enter a residence at Turnberry Ocean Club, you instantly appreciate the superb architectural thought and creativity. A luxury tower must contain more than just efficient floor plans and an innovative design. It must have a soul and provide a lifestyle and a level of service that is unrivaled.

This groundbreaking design is both modern and timeless, intelligent yet simple. It inspires a sense of openness that comes from what you feel, not just from what you see.

We are building Turnberry Ocean Club for an exceptional few.

TURNBERRY ISLE RESORT
& COUNTRY CLUB

AVENTURA THEN

It began 50 years ago when Donald Soffer arrived in South Florida with a vision and unwavering determination. Acting purely on instinct, Soffer purchased a 785-acre tract of submerged, undeveloped swamp and marshland facing the Intracoastal Waterway in North Dade County. From little more than a sketch on a cocktail napkin, he began building his vision. He began building Aventura. Over the next 40 years, Soffer transformed that land into the world-famous Turnberry Isle Miami, Aventura Mall, thousands of luxury condominiums and class “A” office buildings. Today, Aventura is one of Florida’s most prestigious addresses and bears a strong resemblance to that napkin sketch drawn in 1967.

Located in Miami between Aventura and Bal Harbour, Sunny Isles is two miles of fine sand and sky nestled between the majestic Atlantic Ocean and the vibrant Intracoastal Waterway. “My goal was to design a building that would be visually distinct. The architecture of the building is unique and recognizable. When they see it, there will be no doubt in anyone’s mind that they are arriving at Turnberry Ocean Club.”

CARLOS ZAPATA
ARCHITECT

RAISING THE BAR. AGAIN.

The imagination of most architects relates more to the earth than to the sky. But for world-renowned, Venezuelan-born architect Carlos Zapata, the sky is the ultimate canvas for his award-winning designs. Turnberry Ocean Club brings to life his panoramic vision for movement with richer, more wide open forms — wall to wall, floor to ceiling — using glass like a jeweler uses diamonds. Clean, dynamically shaped structures with warm, inviting spaces add a sense of traditional home living to his modernist architecture.

DESIGN TEAM

Jeffrey Soffer

One of the country's most highly regarded real estate developers, Jeffrey Soffer has been dedicated to Turnberry's growth for more than 25 years. His impact and influence can be seen in the development of numerous award-winning projects in South Florida and abroad. Soffer led the \$1 billion expansion and renovation of the company's landmark Fontainebleau Miami Beach, transforming the iconic resort into one of the country's most sought-after beachfront playgrounds. Soffer also has created numerous South Florida residential landmarks, including Turnberry Ocean Colony, Porto Vita, Fontainebleau II and Fontainebleau III, Turnberry Village and more. He brought his company's "mansions in the sky" concept to Las Vegas and expanded the company into suburban Washington D.C. and The Bahamas with successful high-rise residential developments.

Carlos Zapata

For Venezuelan-born architect Carlos Zapata, the sky is the ultimate canvas for his award-winning designs. Turnberry Ocean Club embodies his panoramic conception of movement with glittering, wide open forms — wall to wall, floor to ceiling. Turnberry's iconic tower uses glass like a jeweler uses diamonds: to reflect and dazzle. Zapata is famed for combining clean, dynamically shaped structures with warm, inviting spaces. These spaces allow for traditional home living in his modernist masterpieces.

Robert M. Swedroe

With twelve years of experience as a senior design architect for Morris Lapidus, renowned architect of the Fontainebleau Hotel, Mr. Swedroe has an extraordinary talent for detail. He creates superb floor plans that optimize space, flow and ocean views. Fueled by a desire to maximize the quality of life in multi-residential buildings, the Yale-educated Mr. Swedroe has introduced trailblazing concepts like flow-through-view residences and direct-entry elevators that eliminate long public corridors. Mr. Swedroe has always been at the forefront of innovation. His ingenious designs include highly glazed modern structures and the world's tallest known oceanfront condominium with all private-entry elevators.

Dan Riordan

Riordan oversees Turnberry's entire residential division, including building development and real estate initiatives. Most recently, he was involved in the development of Turnberry Tower Arlington, the tallest condominium on the Washington D.C. skyline. His responsibilities include all operations, as well as sales and marketing for the \$350 million, 30-story luxury tower where all residences have been completely sold. Riordan's three-decade career includes marketing and selling more than 3,000 condominium units valued in excess of \$2.5 billion and he was instrumental in pioneering condo development in Las Vegas for Turnberry in 1998.
